OUR PHILOSOPHY

- ▶ The world is beautiful and deserves a beautiful charging infrastructure!
- ▶ That's why we offer iconic design premium charging stations that contribute to aesthetic architectural landscapes of Your city and country

Iconic & Award-winning

CityCharge V2 public charging station was awarded with prestigious RedDot product design award in 2018. Its iconic LED-stripes provide a clear status indication, making CityCharge line a friendly face for electric drivers at day and night.

Robust & Vandalism-proof

We know you've got plenty of other things on your hands. This is why we've made CityCharge line vandal proof, non-flammable and discoloration proof. Its robust and modular build made from aluminum makes the charger the strongest one around and blending well into its surroundings.

Smart & Advanced

Chargers has all the newest features in the market such as Dynamic Load Management, Power Balancing, DC monitoring, accurate billing function and etc. Remote software updating via Elios back end cloud platform.

Durable & Reliable

With its unique rugged high-impact housing, advanced heating system and high-quality power electronic components from world famous brand such as Siemens, Phoenix contact, Mennekes etc, CityCharge line charging stations are built to last.

CityCharge V2

- ▶ **2 x Mode 3, Type 2**
- ▶ **Up to 44 kW (2x22 or 2x11)**
- ▶ **Power management system**
- ▶ **OCPP 1.6 JSON connectivity**
- ▶ **3G/4G/WiFi/LAN**

HomeBox Slim

Designed for:

- ▶ Private garage
- ▶ Company territory
- ▶ Fleet parking
- ▶ Underground parking
- ▶ Design options:

Features:

Simple installation

Mode 3 Type 2 up to 22 kW

3G/4G/WiFi/LAN/RFID

Compatible with CPOs

HomeBox Slim Plus

Designed for:

- ▶ Private garage
- ▶ Company territory
- ▶ Fleet parking
- ▶ Underground parking
- ▶ Design options:

Features:

Integrated charging cable

Mode 3 Type 2 up to 22 kW

3G/4G/WiFi/LAN/RFID

Compatible with CPOs

"ELIOS" BACK-END

▶ **Cloud based system**

▶ **RFID users**

▶ **Charging points database**

▶ **Real time control**

ELIOS 

▶ **Robust aluminum housing**

▶ **Payment modules integration**

▶ **Data logging**

▶ **Energy consumption**
